## Mini

Universal Electric

### EXPOSURE METER

For Still and Motion Picture Photography

The Mini is direct reading and preset to film and shutter speed. It is very small and light and slips easily into your vest pocket. Measures  $1\frac{7}{8} \times 2\frac{1}{2} \times \frac{3}{4}$  inches and weighs but  $3\frac{1}{2}$  ounces. Inclined cell and protecting cover eliminate top and bottom light influence. No carrying case necessary.

REGULARLY \$12.50 . . . **\$8<sup>95</sup>**

## THE ARGUS ENLARGER

35 MM

Without framing easel or lens

Formerly \$16.50

**NOW \$9.95**

With plain base and F.5.6 lens

Formerly \$20.00

**NOW \$12.50**

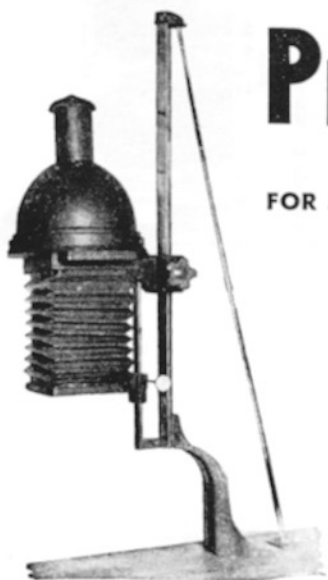

Uses 5 optically polished lenses. Gives extremely sharp, fully corrected definition. Aperture F.4.5 {when Argus camera used} F.5.6 {when Argus adapter lens used}. High precision condenser system. Two optically polished and matched clear condenser lenses give sharpest, flattest field. No frosted or opal glass used.
